

Georgia Social Security Law Firm

Author : saragkhaki

We specialize in only one practice area and that is Social Security Disability Law. Rather than being good at multiple areas of law, we believe in being the best at one thing; and that one thing for us is Social Security Disability, this is our passion and sole niche.

Our mission is to advocate for people with disabilities by providing them the legal and financial security that they need to live the life that they deserve.

We help people with mental or physical limitations by gaining them monthly disability benefits from Social Security whether it is in the form of SSDI or SSI.

[Social Security Disability \(SSDI\)](#) - *for disabled adults who meet the work credit requirement.*

[Supplemental Security Income \(SSI\)](#) - *for disabled adults and children who meet the income and asset requirement.*
